

Common Ground Conference '07: Advancing Clean Energy Solutions for Georgia

September 7, 2007

Dear Terry,

Your speech was the perfect way to begin our biannual Common Ground conference. We, and all the attendees, enjoyed hearing about your experiences and expertise regarding energy and environmental policy. Thank you for joining us and educating Georgians on this important issue.

We also appreciate your willingness and enthusiasm to meet with leaders in our state, including governmental and environmental representatives, as well as the media.

It was a pleasure meeting you and we look forward to learning about all your future work.

Thank you again,

Julie Mayfield
Vice President and General Counsel
Georgia Conservancy
