Mr. Terry Tamminen  
3110 Main Street Suite 220  
Santa Monica, CA 90405

Dear Terry,

You gave our Climate Change Summit a magnificent launch and everyone soared the rest of the day. Thank you for so generously taking time to come to central Wisconsin, and for tailoring your speech to our day, and for provoking and engaging and instructing all there to hear you. And thank you for challenging us to make sense of our day and commit to transforming it into impactful action. And thank you for the great fun of listening to you speak.

Please know how grateful we all are that you live and write your passion, and that your passion for responsible living drives us to author a legacy of which we can be proud. I find it immensely important that you integrate humanistic and scientific perspectives into strategies for sustainability. I'm delighted you will influence President-elect .

It was an honor to have you with us.

With gratitude and warm regards and my best wishes for a wonderful holiday,

*Barbara Lawton*
